lathuytrang.ftu@gmail.com

Hai Phong, Viet Nam

EDUCATION

Texas A&M University, College Station, Texas, USA

Master of Science in Visualization, December 2025

Major GPR: 3.86, Cumulative GPR: 3.86

70% of education financed through employment waivers, grants, and scholarships

Arena Multimedia, Hanoi, Vietnam

Advanced Diploma in Multimedia Communications, April 2023

Degree Classification: Distinction

Foreign Trade University, Hanoi, Vietnam

Bachelor in International Economics, April 2023

Degree Classification: Distinction

TECHNICAL 3D SKILLS

Modelling | Maya, 3Ds Max, Blender

Sculpturing and UV Remapping | ZBrush

Texturing | Adobe Substance Painter

Rigging and Animating | Maya

Motion Capture | Unreal Live Link, Motion Builder

Visual Effects and Interaction | Houdini

Environment Setting and Digital Twin Development | Unreal Engine

2D *Layout* | Adobe InDesign

Image Editing | Adobe Lightroom

Image Design | Adobe Photoshop, Adobe Illustrator

Video Editing | Adobe Premiere Pro, Adobe After Effects

Programming

C# | Unity

C++ and Blueprints Visual Scripting | Unreal Engine, Arduino IDE

Python, HTML and CSS | Visual Studio Code, PyCharm

Others *Projection Mapping* | MadMapper

Sound Design | Adobe Audition

Photography | Camera

Photogrammetry | Polycam, Luma

WORK EXPERIENCE

AI for Sustainable Livestock System Lab, Texas A&M University, USA

Graduate Research Assistant, January 2025 - Current

- Developed a real-time digital twin system integrating Unreal Engine and Google Colaboratory to visualize agent-based cattle methane simulations, using MQTT-JSON for low-latency data streaming and synchronized feedback
- Designed interactive 3D environments and performance benchmarks to validate methane predictions and support stakeholder decision-making through visual analytics using Unreal EngineLed a group of 5 undergraduates
- to co-author a research paper exploring the application of digital twin technologies in animal science, focusing on sustainability and simulation modeling
- Wrote technical book chapter with other Animal Science PhD students for Artificial Intelligence in Veterinary and Animal Science: Principles, Applications, and Future Directions book
- Join in research and in charge of digital twin parts with other PhD students in the lab
- Code and design UI-UX for lab website

Visualization Department, Texas A&M University, USA

Graduate Assistant Teaching, August 2023 - December 2025

- Facilitated instruction for multiple courses, including History of Modern Art, Principles of Design, and Visual Studies Studio, managing up to 150 students per class
- Evaluated and Graded assignments and examinations for 70-90 students weekly, providing detailed and constructive feedback to boost academic performance

- Delivered specialized instruction on Unreal Engine, Photogrammetry, and 3D design principles, expanding curriculum and improving students' technical competencies
- Resolved student inquiries related to 2D design theory and technical issues
- Collaborated with Faculty to develop course materials and improve teaching methodologies, setting up teaching aids to ensure a conducive learning environment

Visualization Department, ENDEAVR Institute, USA

Digital Design Intern, June 2025 - July 2025

- Designed UX/UI wireframes for a three-mode in-vehicle interface (Self-driving, AI Training, AI Driving) by translating technical documentation into user-friendly visual flows and establishing a cohesive brand guideline
- Developed an interactive digital twin prototype by importing Google Earth data into Unreal Engine using Cesium and simulating crowd movement via custom-drawn paths with Mass AI

Creative Department, VR Tech Company, Vietnam

3D Artist Intern, June 2024 - August 2024

- Created 3D models, textures, rigging, pain weighting, and animations for objects using reference and real-life imagery, ensuring high-quality representations
- Collaborated with software developers to provide insightful feedback during game testing phase, improving gameplay mechanics and visual elements
- Translated and localized technical documents, facilitating clear and effective communication with marketplace audiences and key partners, including Huawei

LEADERSHIP

Visualization Industry Fair Association, Texas A&M University

Co-director, August 2024 - August 2025

- Led weekly meetings with four team leads to coordinate association updates and drive professional development of 20 members
- Implemented strategic visions and master plans by allocating additional resources to marketing initiatives, resulting in a 50% increase in member recruitment
- Increased event participation by 33% by leveraging insights from industry partners and redesigning marketing department's strategies and brand identity standards

Marketing Executive, August 2023 - August 2024

- Managed social media platforms and developed engaging content, increasing online engagement by 40% and expanding association's reach within university community

Visualization Graduate Student Association, Texas A&M University

Vice President, August 2024 - August 2025

- Assisted President in strategic planning and organizational management, ensuring effective execution of association goals and initiatives

Secretary, August 2023 - August 2024

- Prepared detailed minutes and reports for executive meetings, providing clear documentation and actionable insights to accelerate decision-making processes

Communications Department, Human Resources Association, Foreign Trade University

Studio Lead (20 hours/week), April 2020 - January 2021

- Led other members to promote 5 webinars on career orientation for university students, achieved 175.000 reaches in 2 weeks
- Directed HRC Studio to devise content and make videos presented before more than 5000 people in "Talented Candidates" contest
- Supervised three members to create internal videos for the association and managed team to execute external projects with other renowned firms in Vietnam

HONORS

University Aggie Honor Council Appeals Committee, PVFA School Representative

August 2024 - Current

TED Talks in Vietnam, Guest Speaker, April 2023

YouTube, Composer, 2018, having 2 hit songs with 60M and 45M views sequentially and earned 30k profit from copyright for both songs

AWARDS

Distinguished Student Award for Master of Science in Visualization, December 2025

Youth Piano Competition in Vietnam, Runner-up, 2015 and 2013

Concert Category in National Digital Piano Festival, First place, 2012
